Introduction:

The progress of country depends upon the quality of its teachers and for this reason teaching is the noblest among all professions. The irony of fate, however, is that teaching is the most unattractive profession and teacher no longer occupies an honorable position in the society.

‘Teacher teaches John Latin.’ is the famous sentence in our teaching – learning process in Today’s education system John is to much importance. But teacher is also important because teacher improves students educational as well as social activities.

“Life is a challenge, accept it.” is the most important words because life is full of struggle. Education system and process help to improve life through life skills.

When we are thinking about teacher training teacher trainees are came from many types of stream and experience and life styles. Life skills are to much important in trainees life.

Definition of the Life Skill:

“Abilities for adoptive and positive behavior that enable individuals to deal effectively with the demands and challenges of everyday life (WHO 1993)

10) Coping with stress.

Meaning of Life Skill :-

Life skill shows that the life skills can influence the way one feels about oneself and others and enhance one’s productivity self-esteem and self confidence.

In teacher education from Philosophical, Sociological, Psychological aspects, We trained students in many skills. Like Teaching, lesson planning, evaluation system, Practice teaching, in trainees day today’s life. He shall go to involve in society of Teacher so, we expect many things from him.

Objectives of the Study :-

1) To know the life skills.
2) To classify the life skills.
3) To create interest towards teaching profession.
4) To understand the relation between life skill and training.
5) To develop the life skills through aspect of Teachers Personality.
Scope and Limitation of Study :

Teacher training is the concept which outcome from military training. Teacher trainee improve his various skills in the period of training.

All the teachers should be trained, but there should not be and also can not be a specific training of Teachers. This conviction is born out by observations that even the born teachers have to study the techniques of teaching craft. There are teachers who through training and experiences have acquired enormous success in teaching There is however, no denying the fact that much wastage in teaching effort can be saved if the prospective teacher is subjected to teacher education for actualization of potential in him.

It is related to life skills only its limitation.

Classification of Life Skills :-

We will classify above mention life skills in to three groups for our better understanding.
